Favorite flower fact!

- Composite flowers are made of two flower types (ray and disc).

Favorite flower fact!

- Composite flowers are made of two flower types (ray and disc).
- Ray flowers are often mistaken for petals

Favorite flower fact!

- Composite flowers are made of two flower types (ray and disc).
- Ray flowers are often mistaken for petals
- Disc flowers appear as small “dots” in the center of the entire flowering head.

Favorite flower fact!

- Composite flowers are made of two flower types (ray and disc).
- Ray flowers are often mistaken for petals
- Disc flowers appear as small “dots” in the center of the entire flowering head.
- So, a single composite flower (e.g sunflower, daisy) is really made up of hundreds (possibly thousands?) of flowers!

Favorite flower fact!

- Composite flowers are made of two flower types (ray and disc).
- Ray flowers are often mistaken for petals
- Disc flowers appear as small “dots” in the center of the entire flowering head.
- So, a single composite flower (e.g sunflower, daisy) is really made up of hundreds (possibly thousands?) of flowers!
- Great way to surprise a special someone!

A few favorite **F.R.I.E.N.D.S** related scenes

- When Rachael and Phoebe scare Ross with “salmon skin roll”
- When Phoebe has her sexy phelgm
- When Ross tries to return a broken couch for \$4 store credit
- When Ross mimics Paolo
- Phoebe’s expression when Brad Pitt joins Thanksgiving Dinner

Worms

- I
- am
- afraid
- of
- worms!
- NOT KIDDING

All cones are not pine cones!

I recently was able to get my family to realize that all cones shouldn't be called "pine cones" because not all cones from pine trees. Didn't know this was a pet peeve of mine until I started working with spruce!

My field work dog!

This is Dixie! She comes with me while I do my field work. Here, we are on Mount Mansfield collecting spruce cones.

Fall is my favorite season!

JAY PEAK, VERMONT
